Welcome to Academ

Your Intelligent Educational Assistant at Chulalongkorn University

“Our mission is to empower Chulalongkorn University students with instant, accessible, and reliable academic assistance through an intelligent AI-powered chatbot that supports independent learning, enhances understanding, and improves student success across all disciplines.”

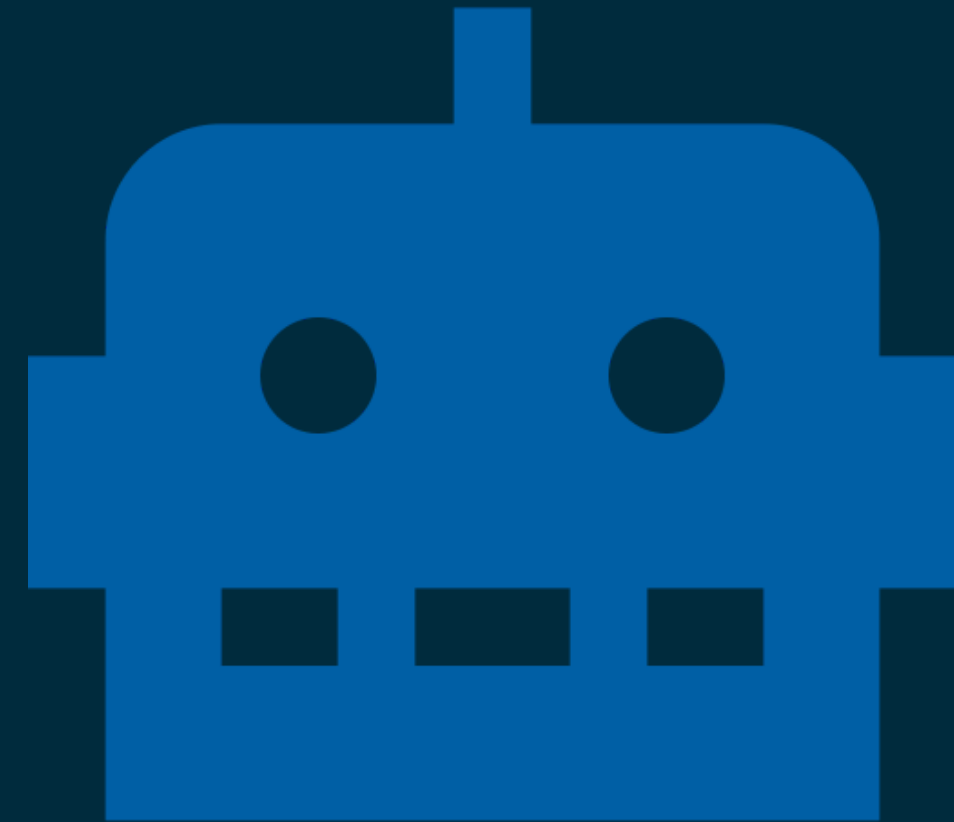

What is Academ?

- A chatbot designed to help CU students get instant academic support

It provides help for:

- Calculus
- Physics
- Computer Programming
- Project Management
- General university questions

“Accessible, easy-to-use learning support tool”

Problems students face:

1

SLOW ACCESS TO ACADEMIC
INFORMATION

2

DIFFICULTY UNDERSTANDING
COURSE CONTENT ALONE

3

NEED FOR ON-DEMAND
SUPPORT

4

LACK OF PERSONALIZED
ACADEMIC GUIDANCE

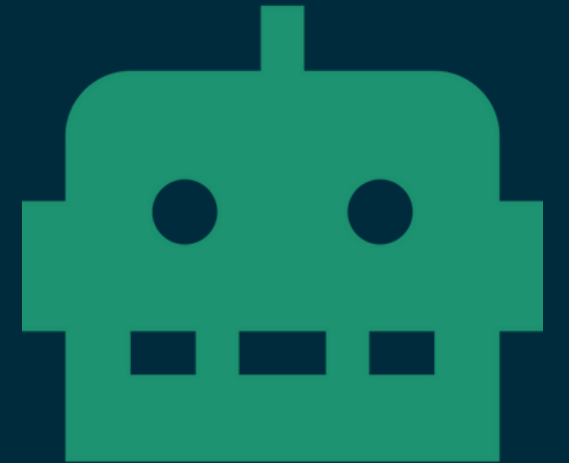

1
NAME
the user's name

2
AVATAR
their emoji of choice

3
PROMPT
the question they want to
ask the chatbot

Input &
Output

4
OUTPUT

- AI-generated academic response
- Content-aware
- Different answer tone depending on selected professor page

Input examples:

Display name

Enter name

How are you feeling?

Join

System Architecture Overview

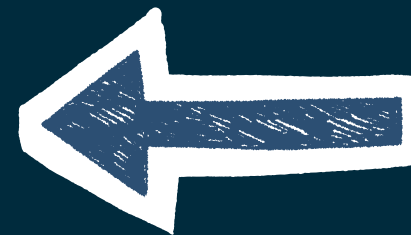

STREAMLIT UI

- Multi-page layout
- Sidebar navigation
- Chat interface

OPENAI API

- Processes messages
- Generates professors-style responses

SESSION STATE

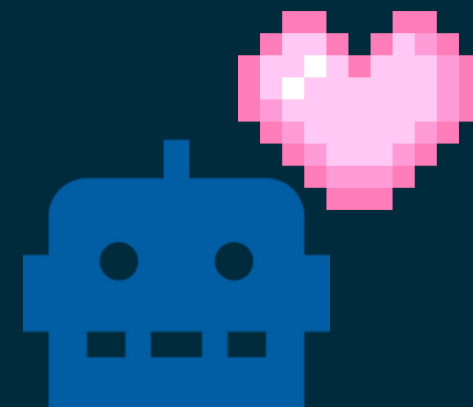

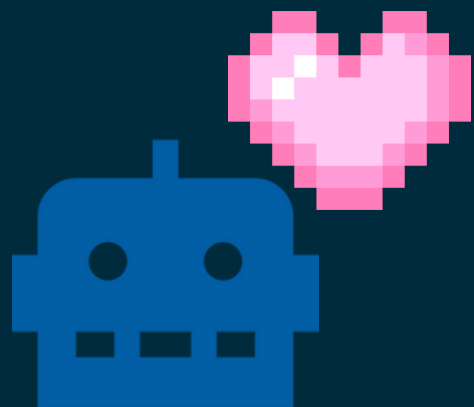

- Stores chat history
- Synchronizes UI

LIVE DEMONSTRATION

Project Requirements

Requirement	How Academ Satisfies It
External Libraries	Uses Streamlit + OpenAI
100+ lines	Combined code exceeds requirement
5+ functions	Multiple functions for messaging, UI, processing
Python fundamentals	if-else, loops, lists, dicts, strings
Difficulty	GPT-powered chatbot
Code quality	Modular, readable, structured
Report requirements	Includes objective, I/O, libraries, code explanation, declaration

THANK YOU!
